PROGRESS OF REPAIR WORK AT THE VAKHSH STATE VARIETY TESTING STATION

Currently, with the Government of the Republic of Tajikistan support, the State Institution "Agriculture Entrepreneurship Development" gradually renovates and restores a number of scientific and educational buildings, laboratories of the Ministry of Agriculture, the Academy of Agricultural Sciences of Tajikistan, and other essential facilities, using modern design and commissioning them, as part of the "Strengthening Resilience of the Agriculture Sector Project".

All these construction, restoration, landscaping and site improvement works are the result of national independence, peace and unity; the government constantly takes the necessary measures to develop the country various sectors.

Our next facility is the Vakhsh State Variety Testing Station. Due to its existence since Soviet times, this facility was in need of major renovation.

This year, as part of the project, the State Institution "Agriculture Entrepreneurship Development" repaired and renovated the building roof, walls, interior finishing, floors and ceilings replacing windows and doors with high-quality ones. The building entrance, small electrical appliances and chandeliers were also completely replaced; a storage facility for seeds of various agricultural crops was built next to the building.

Currently, interior renovation and restoration work is fully completed, and the exterior finishing is nearing completion.

All nuances were considered during the renovation, and the building repair with modern design will be completed shortly.

The Vakhsh State Variety Testing Station management and staff are satisfied with the ongoing Government of the Republic of

Tajikistan and the State Institution “Agriculture Entrepreneurship Development” support and express their gratitude for this building high-quality renovation.

**ASSESSMENT AND FEASIBILITY STUDY PHASE FOR AN AGROLOGISTIC
CENTER CONSTRUCTION IN KHOROG TOWN, GBAO**

The Government of the Republic of Tajikistan annually pays great attention to the sustainable development of the country various sectors and continuously takes the necessary measures to implement their plans.

The State Institution “Agriculture Entrepreneurship Development” within the “Strengthening Resilience of the Agriculture Sector Project” is conducting an assessment and feasibility study in collaboration with Sofreco (France) and by involving the international consultants for an agrologistic center construction in Khorog town, GBAO.

It is worth noting that, with the Government of the Republic

of Tajikistan support, the State Institution “Agriculture Entrepreneurship Development” will build and commission five agrologistic centers in the country (Dushanbe, Sughd, Khatlon and GBAO regions) according to the international standards.

October 10, 2025

PROGRESS OF REPAIR AND RESTORATION WORKS AT THE STATE INSTITUTION “PLANT PROTECTION AND AGRICULTURAL CHEMICALIZATION”, B. GAFUROV DISTRICT, SUGHD REGION

The State Institution “Agriculture Entrepreneurship Development” annually takes the necessary measures to implement the “Strengthening Resilience of the Agriculture

Sector Project” and constantly works to develop the agricultural sector.

With the Government of the Republic of Tajikistan support, the State Institution “Agriculture Entrepreneurship Development” has begun a major renovation of the State Institution “Plant Protection and Agriculture Chemicalization” building in the Sughd region B. Gafurov district as part of the “Strengthening Resilience of the Agriculture Sector Project”.

The building of the State Institution “Plant Protection and Agriculture Chemicalization” has been in operation since Soviet times (since 1985) and contributes to the agricultural crops’ protection in the region.

As this building has been in need of major repairs for many years, the State Institution “Agriculture Entrepreneurship Development” began renovation work in September this year. Within the project, the building will be repainted, the walls leveled, the interior, the floors and ceilings refinished, the doors and windows will be replaced with high-quality ones.

The building entrance, small electrical appliances and chandeliers will be completely replaced and renovated as well with quality and modern design.

Repair and restoration work is currently underway inside, outside and on the roof. Every detail is being considered during the renovation to ensure the long-term operation of the building and high-quality completion within the specified timeframe.

During the renovation, the Institution engineers, social and environmental specialists provided the workers involved in the work with detailed information on the environmental management plan, ecology impact assessment results, compliance with sanitary and hygienic standards, safety precautions, the requirements and standards of the Republic of Tajikistan current legislation and the World Bank, the grievance redress

mechanism and compliance with other applicable laws.
