REQUEST FOR EXPRESSION OF INTEREST

Republic of Tajikistan

State Institution “Agriculture Entrepreneurship Development”
Project Management Unit (SI AED PMU)

Strengthening Resilience of the Agriculture Sector Project
(SRASP)

IDA (International Development Association) Grant No: E1450

Title of the consulting assignment: **Information Systems and Automation Expert.**

Reference Number: SRASP-2024-03-CS-INDV

The project aims to support the Government of Tajikistan (GoT) in successfully transitioning to a sustainable, more productive, climate resilient, and inclusive model of agricultural sector growth.

The proposed project will help to:

1. increase the availability of improved seeds, seedlings, and planting materials that are climate resilient, affordable, farmer-preferred, and well adapted to the different agro-ecological conditions of Tajikistan;
2. strengthen the access to improved Agri-logistic services of farmers and agri-businesses; and
3. strengthen the crisis management, i.e. early warning, preparedness, and response capacity of selected public institutions.

1. Objectives

The Information Systems and Digitalization Expert plays a key role in developing the Information System for the agricultural sector, ensuring that the system meets the requirements of the customer, stakeholders, and end users. The main tasks of the Information Systems and Automation Expert include the formation and management of the product vision, the creation and prioritization of tasks, working with stakeholders and stakeholders performers, determining acceptance criteria, collecting and analyzing feedback, as well as monitoring the

progress of development. Together with the Customer, the Information Systems and Automation Expert determines the goals of the system, manages the list of requirements, organizing it by priority depending on its importance and value for the Customer. He interacts with key stakeholders, involved consulting and technical implementers, and end users to agree on changes and clarify requirements, constantly checking whether the information system being developed meets their expectations and goals. The Information Systems and Automation Expert also sets quality and acceptance criteria to ensure that tasks are completed at the proper level, analyzes feedback to make improvements, and participates in regular meetings with the team, monitoring the progress of development and adjusting the course if necessary.

The Information Systems and Automation Expert will report directly to and work under the supervision of the Deputy Director/Project Coordinator of the SRASP, the Director of the SI AED PMU and the Component 3 Coordinator.

1. Scope of services for the Expert

Under the direction of the SRASP Project Coordinator of the SRASP, and the Component 3 Coordinator the Expert will implement the following tasks:

1.1. Develop and manage the concept note for the AMIS

Based on existing materials, including the documents prepared by the FAO consultant, the Expert must categorize the strategic objectives of the Client and key stakeholders, define the needs of the end users and develop a strategic concept document for the AMIS. The Expert is responsible for conveying this document to the development team, including consulting and technical staff, clarifying what is to be achieved by the system. This includes defining the objectives, user values and long-term prospects of the system.

1.2. Creating and prioritizing a list of key tasks and requirements

The Expert must develop a list of key tasks and requirements for the AMIS. This list includes key tasks, requirements, and functional elements that are critical to achieving the AMIS strategic objectives. The expert should prioritize the items based on their importance, cost, and expected benefit to the Customer.

1.3. Stakeholder Engagement

The Expert is tasked with actively engaging stakeholders to gather their requirements, expectations, and feedback. This involves participating in regular meetings and presentations to discuss the goals and plans for improving the information system. The Expert must ensure that all proposed changes are coordinated with stakeholders and their opinions are considered, all while maintaining alignment with the core vision and objectives of the project.

1.4. Definition of acceptance and quality criteria

The Expert is tasked with defining clear, measurable acceptance criteria for the tasks and functions of the AMIS, ensuring they align with organizational requirements and standards. This involves analyzing system requirements, collaborating with stakeholders to confirm priorities, drafting criteria using the SMART framework, and validating them through stakeholder review. The Expert must document the finalized criteria, ensuring they are clear and actionable, and provide guidance to development and testing teams for effective implementation. The completed criteria must be approved by stakeholders and ready for integration within the project timeline.

1.5. Feedback and Iterative Improvement

The Expert must constantly analyze feedback from users, stakeholders and the team in order to improve the software product. Based on this information, he can change priorities in the task list, clarify requirements or add new features, which allows the product to be more adapted to changing conditions and needs.

1.6. Monitoring progress and coordination

The Expert is responsible for monitoring the progress of development and making timely adjustments as needed. They must manage the scheduling of meetings with stakeholders and performers to stay informed about current tasks and adjust the project's course if necessary.

1.7. Trainings and training materials coordination

The Expert is required to work closely with the development team to prepare training materials for the staff of the Digitalization Center at the Ministry of Agriculture and other relevant partners and stakeholders. The Expert will supervise and accompany the delivery of training sessions, ensuring they are conducted in accordance with the project's design, strategy, and goals. Additionally, the Expert will monitor the training plans to ensure that the outcomes align with the agreed-upon objectives and contribute to the overall success of the project.

2. Qualifications and work experience:

1. Education: The Expert should have a university degree in computer science, mathematics, or a related field. A diploma or certificate in digitalization or agricultural management is an advantage.
2. Work experience: He/She should have at least 3 years of proven experience in the field of Information Technology implementation and automation of business processes, and software development. Experience in IT project management and additional experience in agricultural projects is an advantage.

3. Required skills:

1. Communication: An Information Systems and Automation Expert needs to communicate effectively with the team, key stakeholders, consulting and technical performers in order to communicate the requirements, expectations and vision of the AMIS software product.
2. Analytical Thinking: An Information Systems and Automation

Expert must be able to analyze data, draw informed conclusions, and make decisions that lead to the successful achievement of product goals.

3. Flexibility: An Information Systems and Automation Expert must be able to respond quickly to changes and adapt to new conditions to ensure that the project to remain relevant and useful.

4. Understanding of Technical Aspects: An Information Systems and Automation Expert should be an expert in the development phases of Information Systems and possess a basic knowledge of programming and technical processes and constraints to better understand the capabilities of the technical team.

5. Knowledge of languages: A digital expert must be fluent in Tajik, Russian and English. Documents should be prepared in English and Tajik (and, if necessary, in Russian).

REQUEST FOR EXPRESSION OF INTEREST

Republic of Tajikistan
State Institution “Agriculture Entrepreneurship Development”

Project Management Unit (SI AED PMU)

Strengthening Resilience of the Agriculture Sector Project (SRASP)

IDA (International Development Association) Grant No: E145-TJ
Title of the consulting assignment: for consultant to conduct a comprehensive study of the condition of subdivisions of MART, TAU, TAAS to identify the presence of hazardous chemicals, including pesticides, expired reagents or other chemicals recognized as hazardous.

Reference Number: **SRASP-CS-INDV-2025-01**

The project aims to support the GoT in successfully transitioning to a sustainable, more productive, climate resilient, and inclusive model of agricultural sector growth.

The purpose of this request

The main purpose of this assignment is to conduct a study aimed at assessing the subdivisions of the Ministry of Agriculture of the Republic of Tajikistan, the Tajik Agrarian University named after Shirinshokh Shotemur and the Tajik Academy of Agricultural Sciences to identify the presence and volume of hazardous chemicals, including pesticides, expired reagents or other chemicals recognized as hazardous in their warehouses and laboratories. In order to achieve the intention, the following activities need to be implemented:

- Identification and assessment of potentially hazardous waste storage facilities**

The first stage involves identifying facilities and chemical storage locations that require detailed investigation.

It is necessary to collect and analyze data on places of storage of chemicals and other hazardous substances in all subdivisions of the Ministry of Agriculture of the Republic of Tajikistan, Tajik Agrarian University named after Shirinshokh

Shotemur and Tajik Academy of Agricultural Sciences to study the reporting documentation. On the basis of the obtained data, form a list of objects that may require further detailed inspection.

- Assessment of the storage status of identified hazardous wastes**

Once the target facilities have been identified, an inspection should be conducted to establish the current storage status of hazardous waste and expired reagents. The conditions of their storage, the degree of their potential risk, and the compliance of these conditions with regulatory requirements are analyzed.

- Analise of existing infrastructure and identification of infrastructure changes needs**

To study the technical condition of facilities and equipment designed for storage, processing and utilization of hazardous waste. Analyze their compliance with modern safety standards, and identify needs for repair, modernization or construction of new facilities

- Evaluation of the effectiveness of previously conducted activities**

To analyze the previously performed works aimed at accounting, storage, neutralization and disposal of hazardous waste and expired reagents. Examine reports, results of previous inspections and activities, and assess their compliance with the regulatory framework

- Development of recommendations and reporting**

Formulate recommendations as well as a preliminary **financial plan** to improve conditions of storage, handling and utilization of hazardous waste. Develop proposals for the introduction of modern technologies to minimize environmental and other risks. Prepare an analytical report including the

results of all stages of the study, conclusions and reasonable proposals.

Qualification requirements

- Minimum of 5 years of experience related to hazardous waste identification, neutralization and disposal.
- Practical experience of 3 years in implementation of environmental safety and waste management projects
- Participation in projects of similar focus and scope, including studies, recommendations and activities to improve waste management infrastructure.
- Experience in developing analytical and reporting documentation, including conclusions, proposals and recommendations.
- Skill to use modern methods of data analysis in accordance with international standards.
- Ability to organize field surveys, collect data promptly and interact with representatives of the objects under study.

The detailed Terms of Reference (TOR) for the assignment can be found at the following link):

Request for Proposal Letter

Name of Assignment: **Supervision of Construction of the Agro-logistics centers in the Balkhi district and Khujand city**
Organization: **State Institute “Agriculture Entrepreneurship Development” Project Management Unit**
Project: **Strengthening Resilience of the Agriculture Sector Project**

RFP Reference No.: **SRASP-CS-DRFP-2025-01**

Loan No./Credit No./ Grant No.: **D860-TJ**

Country: **Republic of Tajikistan**

Date: **14.02.2025**

1. Republic of Tajikistan (the Client) has been allocated grant funds (the “Grant”) from the World Bank which are

administered by the International Development Association (IDA) (the “Bank”) and executed by the State Institute “Agriculture Entrepreneurship Development” Project Management Unit (“the Recipient”). The Recipient intends to apply the funds to eligible payments under the contract for which this Request for Proposals is issued. Payments by the Bank will be made only at the request of the State Institute “Agriculture Entrepreneurship Development” Project Management Unit and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the grant agreement. The grant agreement prohibits a withdrawal from the grant account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations. No party other than the State Institute “Agriculture Entrepreneurship Development” Project Management Unit shall derive any rights from the grant agreement or have any claims to the proceeds of the grant.

2. The Client now invites proposals from eligible Consultancy firms to provide the following consulting services (hereinafter called “Services”): Supervision of Construction of the Agro-logistics centers in the Balkhi district and Khujand city. More details on the Services are provided in the Terms of Reference (Section 7 of the RFP) and also can be found at the following website:

<https://aedpmu.tj/en/wp-content/uploads/2025/02/tor-for-construction-supervision.pdf>

3. A firm will be selected under Quality and Cost Based Selection (QCBS) and in a Full Technical Proposal (FTP) format as described in this RFP, in accordance with the policies of the Bank detailed in the Bank’s “Regulations for IPF Borrowers” September 2023 (“Procurement Regulations”) which can be found at the following website: www.worldbank.org

4. The RFP includes the following documents:

Section 1 – Letter of Invitation
Section 2 – Instructions to Consultants and Data Sheet
Section 3 – Technical Proposal (FTP) – Standard Forms
Section 4 – Financial Proposal – Standard Forms
Section 5 – Eligible Countries
Section 6 – Bank’s Policy – Corrupt and Fraudulent Practices
Section 7 – Terms of Reference
Section 8 – Forms of Contract (Lump-Sum)

5. Details on the proposal’s submission date, time and address are:

Date: March 19, 2025

Time: 14:00 Dushanbe time

The Proposal submission address is:

The State Committee on Investments and State Property Management of the Republic of Tajikistan (Goscominvest)

Street address: 27 Shotemur Street

Floor/Room number: Ground floor, room No.10, Tender unit

City: Dushanbe

Postal code: 734025

Country: Republic of Tajikistan

6. The full package of RFP in English may be obtained by interested Bidders upon the submission of an official letter to the email: procurement.srasp@gmail.com. The document will be sent by the AED PMU procurement email.
